ABOUT THE STATE.

Items of Interest Gleaned from Our Exchanges.

The large barns owned by Ora Willard at Barton, who lives on the Barton road, were burned Tuesday evening with all their contents. Ten head of cattle, two hogs and all the farming implements, including those for which he was agent, were destroyed. The loss above insurance, will be \$2,000.

The Burlington water department is particularly busy these days thawing out water pipes. In the last eleven days fifty-three service pipes in different parts of the city have been reported frozen. The first was on January 28 and since that date they have come in thick and fast, principally from the northern part of the city where the soil is sandy.

"Messie" Thibault of St. Albans, who is over 90 years old, was found by policeman J. F. Mahoney at 3 o'clock Wednesday morning on Walnut street, where he had wandered from his home. He had succeeded in scaring the family of John Smith out of several years' growth in his efforts to gain admission and refuge from the cold, and the arrival of policeman Mahoney was due to a telephone message from the scared person. Mr. Thibault was escorted to his home by the policeman and the episode was closed.

State's Attorney A. L. Sherman of Chittenden county will this week request Assistant County Judges Allen and Lyons to call a special grand jury for the March term of Chittenden county court for the purpose of bringing before the court the cases of Dennis and Louis Tremblay charged with the murder of Louis Lamoreaux at Winslow January 8. The request will probably be granted and the trial of the Tremblay boys will undoubtedly take place at the March term. Benjamin Williams will also be tried for the murder of Policeman Patrick McGrath last May. This will make two murder trials in one term, an unusual thing in this county.

A Prosperous Creamery.
At the eighth annual meeting of the North Montpelier Cooperative Creamery company, held at their office February 6, the old board of directors were re-elected. 1904 has been a very prosperous year for the creamery. The number of pounds of milk received was 5,234,502; pounds of cream, 259,626; number of pounds of butter made, 348,279. Cash for butter sold and to patrons, \$75,154.65; average price paid, 23 cents per pound. Cost of making per pound, .0187.

A Valuable Lot of Furs.
Charles Trudeau of St. Albans is exhibiting with pardonable pride four skins that he received from Wickham, Que., Wednesday. Mr. Trudeau has been in the fur business for a number of years but has seldom had at one time such a quartette of furs as he has at present. The exhibit comprises the hides of an otter almost six feet "over all," a Canada lynx measuring over four feet from his nose to where his tail should have been and two fishers, each of which is a remarkably large specimen of its kind. Considerable amusement was afforded Mr. Trudeau Wednesday afternoon by his representing the lynx skin as that of a silver fox—many persons greatly appreciating the opportunity of handling so rare a skin, the silver fox being quoted at from \$300 to \$500.

INSURING THE CAPITAL.
The Vermont Sergeant-at-Arms Negotiating for \$450,000 in Hartford.

The state of Vermont, through its sergeant-at-arms, recently applied to insurance companies in Hartford, Conn., for insurance of \$450,000 on the Vermont state house through a local agency. The policies were to be written at the rate of \$1.50 for five years, and added to \$45,000 placed with mutual companies in Vermont, would protect the state to the aggregate of \$500,000. The policies were to be written under a form concurrent with the policies already placed, which was a blanket form with no co-insurance clause. The agent states that he induced the sergeant-at-arms to allow him to add a clause making the percentage of liability to the companies no more in case of a partial loss if at any time there should be less than \$450,000 on the property, which clause was, in effect, a guaranty to maintain that amount of insurance, or co-insure with the companies in case of a partial loss to the extent of such deficit. In other words, according to the agent, while the form "co-insurance" was not mentioned in the policy form, with a valuation of \$500,000 (which is more than all the property covered cost, and the form contains a clause limiting the valuation to an amount not to exceed \$450,000) was 90 per cent of that amount and the companies had in effect a 90 per cent. clause. The New England Insurance Exchange did not see the matter exactly in this light and last week promulgated the 80 per cent. form for the capital building at 40 cents on the building and 60 cents on the contents, and a rate of 50 cents on the blanket form with the 90 per cent. clause. The affair, therefore, is tied up for the present.

THE POWER OF STEAM.

Many May See But It Takes Genius to Realize.

When James Watt saw the steam causing the kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."

There was. Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery. Recent scientific research has put its finger on the "cause" of Dandruff, Falling Hair, and consequent Baldness, and has unearthed a tiny germ which eats the life from the roots of human hair. Newbro's Herpicide destroys this germ and consequently restores the hair to its natural state. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

NOT A SUIT AGAINST CITY.

Reports City Attorney Carleton of rejected suit.

Montpelier, Feb. 10.—City Attorney Frederick F. Carleton, has prepared the following report: "I have the pleasure to report for the first time since the organization of the city that no new litigation in which the city is a party has been instituted within the year covered by the annual report.

This has not been brought about by giving up our just rights nor in failing to undertake the enforcing of the same. It has been accomplished by meeting difficulties in time, knowing that we are right before acting. I think this should be continued as the policy of the city. My duties the past year have been largely advisory. The case of *Moretown vs. the city* and that of *Morse vs. the city* mentioned in my last report are still pending, but will be ended soon.

"The cases of *Alexander and Hutchinson vs. the city* have been finally determined by the county court and the orders of the court carried out.

"The case of *Cory et al vs. the city* has been discontinued."

HORTICULTURAL MEETING.

Fifty Varieties of Apples and Cut Flowers Shown at Vergennes.

Vergennes, Feb. 10.—The eighth annual meeting of the Vermont State Horticultural Society was opened in the city hall at 2 o'clock yesterday afternoon and continued today. There is a good attendance, about 75 persons being here from out of town.

Fifty varieties of apples are shown, also cut flowers and plants from the state experiment station at Burlington. An address of welcome was delivered by Mayor F. C. Phelps, which was responded to by George H. Terrill of Morrisville, president of the society. The afternoon programme follows: "Suggestions for Planting and Caring for the Young Orchard," A. M. Vanham of Randolph; "Some Points on Growing and Marketing Fruit," T. L. Kinney of South Hero; "The Cherry," W. T. Macoun of Ottawa, Ont.; "Suggestions on the Preparation and Use of Fungicides," William Stuart of Burlington.

This Worm Turned Viciously.

"As a rule, when the worm turns, your sympathies are with the worm," observed a West Side householder, "just as they're usually with the under dog in a fight; but those same sympathies don't always save the worm or the dog. That's why I was half tickled to death by a brief conversation I overheard on the hill Monday night. Several of us wanted to leave a car as we rounded into Butler avenue, but somehow we missed connections on signals and were carried some distance beyond our jumping-off place. In the company, but not of it, was a prospering resident whose name I'll keep to myself, for the sake of the town. There aren't any like him in Providence, thank Heaven. He's stiff and pompous and so self-important you can't get within arm's length of him, even in a crowd. As we were picking our way to the sidewalk, one of the passengers who alighted, in humble circumstances, but possessed of the courage of his convictions, was indiscreet enough to address this personage. We came near not stopping at all," he said, amicably. "I haven't the pleasure of your acquaintance," snapped his kinglets, with a toss of the head. "And that's a pleasure you never will have, if I can help it," rejoined the other as quick as a flash and as calm and smooth as oil in the can. "I mistook you for a gentleman." For once, I thought to myself, the worm bit clean through both boots."—Providence Journal.

Fraud Exposed.

A few counterfeiterers have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Coughs and Colds, and other medicines, thereby defrauding the public. This is to warn you to beware of such people, who seek to profit, through stealing the reputation of remedies which have been successfully curing disease for over 35 years. A sure protection to you is our name on the wrapper. Look for it on all Dr. King's or Bucklen's remedies, as all others are mere imitations. H. E. BUCKLEN & CO., Chicago, Ill., and Windsor, Canada.
